Self-guided tour of the LBJ Presidential Library

The Schusterman Center for Jewish Studies

From its inception as a concentration to its present status as an integrative major, the Jewish Studies program at The University of Texas has been designed to reflect the dynamic complexity of Jewish histories, literatures, populations, traditions, and transformations wherever they have existed. As a richly diversified field, Jewish Studies at UT has embraced a wide range of interrelated studies including history, archaeology, languages, literature, textual analysis, ritual studies, sociology, art, and religious thought. This diversity of ideas and methods constructs natural bridges for students across the university to enter into dialogue with Jewish culture.

Texas Jewish Historical Society

The Texas Jewish Historical Society was created to preserve the history of the Texas Jewish Experience. It sponsors and encourages research, as well as provides a forum for scholars and students of Texas Jewish History. A permanent TJHS archive of source materials, documents, family, community and organizational histories has been established at The University of Texas in Austin as part of the Center for American History Collection. The Society is not just for this generation, but for many generations to come who deserve to know of their Texas Jewish heritage.
